Dear Congressmen Davis & Tiberi:

This letter serves as a formal proclamation that ReCapturing the Vision, International, Inc. is against any attempts to cut OFA-funded programs that seek to provide at-risk families with the opportunity for self-empowerment and socioeconomic mobility. Programs, such as ours, that provide marriage education and promote the development of life-skills will help to break the vicious cycle of inter-generational poverty. Compromising the delivery of such programming would be extremely detrimental for our communities and our country as whole.

Sincerely,

Dr. Jacqueline Del Rosario

President/CEO ReCapturing the Vision
